**KeSan Mold & Plastic (HK) Ltd**

**Pursue The Remarkable Quality**

**Provide The High Quality Service**

# 【Company Profile】

KeSan Mold & Plastic (HK) Ltd is a custom injection mold maker and molder of plastic parts. Since 1998, we have been supplying high quality injection molds and molded plastic components meeting the ISO 9001 Certified Quality Management System standards. Our strengths in the areas of hot runner molds, two-component molds, overmolding molds, thread-forming (unscrewing) molds, insert molds, and multi-cavity molds, allow us to support the automotive, medical, home appliance, electronics, and construction markets, etc, and to satisfy the demands of customers all over the world.

Located in SongGang Town, in the BaoAn District of Shenzhen, our 6000 square meter facility contains multiple assembly lines , and uses modern standard equipment, featuring CNC, EDM, and Wire-cut machines, as well as from 30 ton to 680 ton injection machines. These, and other, peripheral equipment, are together capable of producing 40~50 sets molds per month. We provide mold design, mold building, injection molding and parts assembly. At KeSan, we are dedicated to making your every mold and part right, and on time.

# Vision Mission & Values

Our Mission: We are dedicated to our customer total satisfaction.

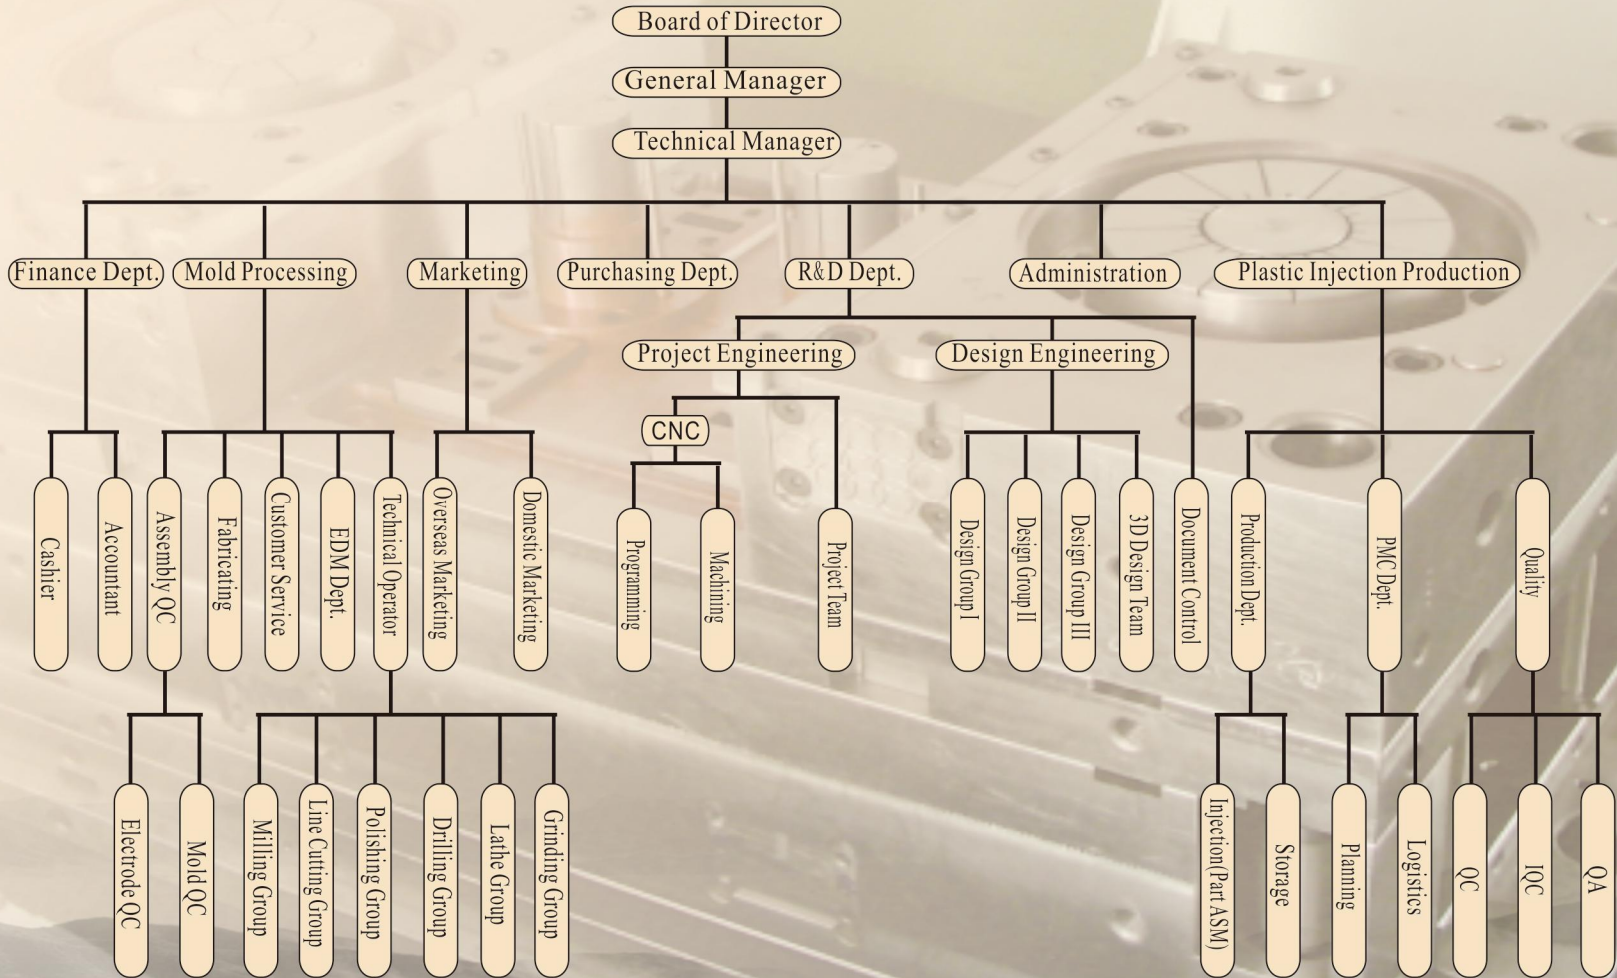

Our Vision: We aim to be a world class manufacturer of custom injection mold and molding.

Our Values: We provide remarkable quality and high quality service.

## **Company Culture:**

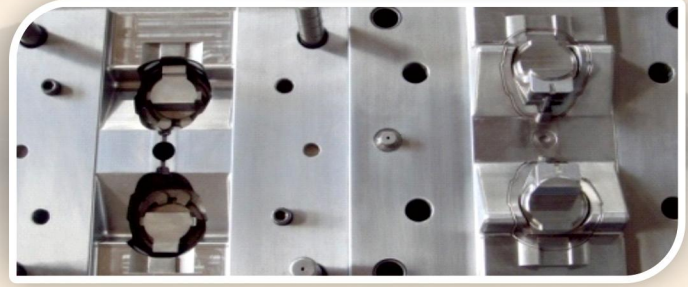

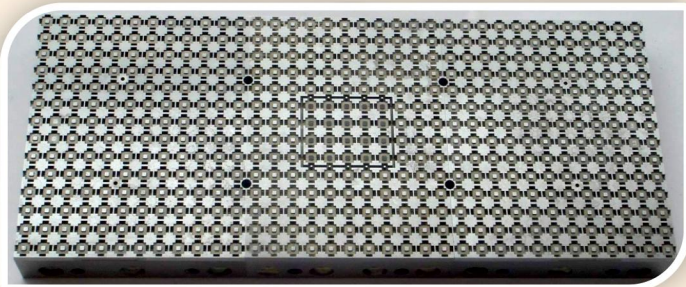

KeSan Mold & Plastic (HK) Ltd is committed to a company culture built on consistent integrity and quality. Customer total satisfaction is our priority, since the beginning, we are driven by the will to satisfy the customer and we have the know-how to do it. The cornerstone of our company philosophy is the personalized service to each customer, listening to their needs, researching the alternative possible technical options that better satisfy them, assisting in the conception and development of the product, being able to propose a full range of services that match the market demand. We don't just manufacture plastic molds and components; we also propose, develop and create with our customer solutions as per their specific requirements, respecting permanently an essential principle: the quality of the molds and plastic components!

KeSan values long term relationships with customers, employees and partners. Our culture and philosophy is the assurance of customer total satisfaction.

## 【Plastic Mold】

KeSan Mold & Plastic (HK) Ltd has excellent equipment, state-of-the-art CAD and CAM technology and highly skilled toolmakers. We are a molder with the full capability to work competently with our customers to transform their design into real parts. Our design and tooling specialists utilize mold simulation software (moldflow analysis program) to validate and optimize the product design and manufacturing process, before the first piece of steel is cut. This process reduces the time needed to condition the mold, and speeds the product to market. Our engineering personnel are knowledgeable in plastic parts and molds design, including design for manufacturability. We are an extension of our customers' R & D operations, helping customers reduce their product launch time. We offer a wide range of expertise in the design, engineering, and building of all type molds using all types of mold building steels.

## 【Injection Molding】

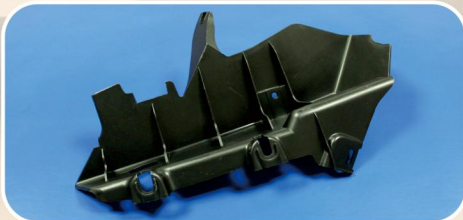

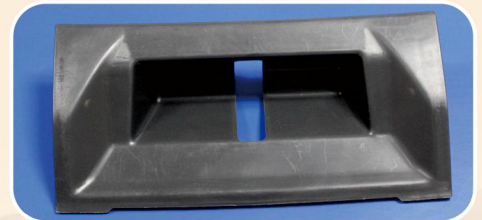

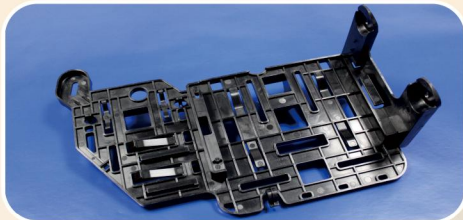

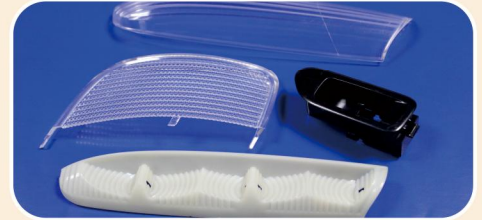

KeSan Mold & Plastic (HK) Ltd is a plastic component manufacturing center offering a wide range of custom molding capabilities. On our floor run over 26 sets of injection molding machines, with clamping forces from 30T to 680T, including a bi-injection machine of 250T. Our plastics engineers and processors are familiar with all types of thermoplastics. KeSan is a flexible plastics supplier and very familiar with production runs of all shapes and sizes. We are not simply a supplier of plastic parts, but experts in providing innovative, value added solutions to a select group of original equipment manufacturers. We inject value into every plastic product.

## Quality Control—The Key of Our Success

Quality is a full-time commitment at KeSan.  
We encourage open communication between customers and the engineering/manufacturing teams to ensure that every project stays exactly on course.

KeSan offers our customers a full range of custom injection molding and mold building services conforming to the requirements of the ISO 9001 Certified Quality Management System.
